Introduction

This Educational Plan (EP) 2021- 2024 was created to provide evidence of a continuous improvement process, to demonstrate accountability and provide assurance to the many stakeholders of Rimbey Christian School (RCS). Through provincial direction, contextual and statistical information this EP is to direct RCS to develop/update priorities that support providing a Christ-centered high quality education to students, grades K – 9. This first EP used the school's mission and vision statements to set priorities for the plan; as well as the performance results of the AERR. The future involvement of stakeholders will eventually be broadened as new methods of communication and engagement are developed. The actual engagement of stakeholders this year was with students, teachers, staff, and the board. It was assumed that the stakeholders would still be in support of the school's mission and vision, and was therefore the primary method of determining priorities. How the RCS board decides to engage stakeholders in this process will be a part of the strategic planning of the RCS board as initiated in April 2021. This strategic planning process will add to the Educational Plan as the strategies unfold. However, the Biblical Christian context of this school will continue to be the foundation of all educational plan priorities.

Accountability Statement for the Education Plan

The Education Plan for Rimbey Christian Society commencing September 1, 2021 was prepared under the direction of the Board/Board of Directors in accordance with the responsibilities under the *Private Schools Regulation* and the *Education Grants Regulation*. This plan was developed in the context of the provincial government's business and fiscal plans. The Board has used its performance results to develop the plan and is committed to implementing the strategies contained within the plan to improve student learning and results.
